
FOREWORD

Special Section on Recent Progress in Electromagnetic Theory and Its Application

The purpose of this special section is to present a collection of original papers that give an overview of recent progress of research and development in electromagnetic theory and its applications, including those related papers presented at the 2021 Symposium on Electromagnetic Theory, held in online format, Japan on November 4–5, 2021. Presentations in international symposia and meetings held in 2021 were also considered as possible contributions to this special section. In response to the call-for-papers, we received several potential paper submissions. After careful reviews, 3 papers and 1 brief paper were accepted in this special section.

The topics of accepted papers are scattering by circular coated metal cylinders, analysis of optical polarization splitters, dataflow architecture dedicated computer of the finite integration technique, and grasping growth state of paddy rice by SAR data. We hope that the readers find this special section useful in the research of the electromagnetic theory and its applications. We would like to express our sincere appreciations to all the authors of contributed papers for their efforts in preparing the manuscripts and to all the reviewers for their careful reviews and valuable comments.

We are also indebted to the editorial committee members for their dedicated efforts in organizing this special section. In particular, we would like to express our sincere gratitude to Associate Professor Yoshihiro Naka of University of Miyazaki and Dr. Shin-ichi Yamamoto of Mitsubishi Electric Corp., who played important roles in the publication of this special section.

Special Section Editorial Committee Members

Secretaries:

Yoshihiro Naka (University of Miyazaki)
Shin-ichi Yamamoto (Mitsubishi Electric Corp.)

Associate Editors:

Yoshiaki Ando (The Univ. of Electro-Communications)
Hiroshi Isakari (Keio Univ.)
Tetsuya Ueda (Kyoto Inst. of Tech.)
Mitsunori Ozaki (Kanazawa Univ.)
Ryosuke Ozaki (Nihon Univ.)
Keiji Goto (Nat'l Defense Academy of Japan)
Takuya Sakamoto (Kyoto Univ.)
Ryoichi Sato (Niigata Univ.)
Jun-ichiro Sugisaka (Kitami Inst. of Tech.)
Norimasa Nakashima (Fukuoka Inst. of Tech.)
Yasuhiro Nishioka (Mitsubishi Electric Corp.)
Tsuyoshi Matsuoka (Kyushu Sangyo Univ.)
Toshifumi Moriyama (Nagasaki Univ.)

Hiroyuki Deguchi and Hideki Kawaguchi, Guest Editors-in-Chief

Hiroyuki Deguchi (*Member*) received the B.E., M.E., and D.E. degrees from Doshisha University, Kyoto, Japan, in 1986, 1988, and 1999, respectively. From 1988 to 2000, he was with the Mitsubishi Electric Corporation. Since 2000, he has been with Doshisha University, where he is currently a Professor. His current research activities are concerned with microwave and millimeter-wave aperture antennas and antenna measurements. Prof. Deguchi is a member of the Institute of Electronics, Information and Communication Engineers (IEICE), Japan, and the Institute of Electrical Engineers (IEE), Japan. He was the recipient of the 1992 IEICE Young Engineer Award.

Hideki Kawaguchi (*Member*) received the B.S., M.S. degrees and Ph.D in Electrical Engineering from Hokkaido University in 1986, 1988 and 1994, respectively. During 1988–1990, he worked for Nippon Telegraph and Telephone Co. and for Hokkaido University during 1991–1998. He now with Muroran Institute of Technology. His research interests include particle accelerator science, portable high-performance computing and electromagnetic field theory. He is a member of the Institute of Electronics, Information and Communication Engineers (IEICE), the Institute of Electrical Engineers (IEE) and the Physical Society of Japan (JPS).
