## FOREWORD

---

### Special Section on Discrete Mathematics and Its Applications

Discrete mathematics has been applied to various areas in computer science and engineering, and proved to be important as their foundation. This special section is the thirty-second in a series that appears in IEICE Transactions on Fundamentals of Electronics, Communications and Computer Sciences, aiming at reviewing the latest progress in discrete mathematics and its applications and contributing to the further development in the research field.

The 2022 special section includes eleven full papers, which cover a variety of topics in discrete mathematics including algorithms and data structures, cryptography and information security, graphs and networks, numerical analysis and optimization. These papers were selected from nineteen submissions with careful reviews by technical experts. We would like to express our sincere appreciation to all the authors for their valuable contributions. We also thank the anonymous reviewers for their voluntary work. As the Guest Editor-in-Chief of this special section, I would like to express my deep thanks to editorial committee members for their considerable efforts. Also, my sincere thanks go to both guest editors.

Editorial Committee:

Guest Editors:

Yota Otachi (Nagoya Univ.),  
Kenji Yasunaga (Tokyo Tech.)

Guest Associate Editors:

Shuhei Denzumi (Univ. of Tokyo), Keita Emura (NICT), Atsushi Fujioka (Kanagawa Univ.), Eiichiro Fujisaki (JAIST), Hiroshi Fujiwara (Shinshu Univ.), Takehiro Ito (Tohoku Univ.), Akinori Kawachi (Mie Univ.), Akitoshi Kawamura (Kyoto Univ.), Kei Kimura (Kyushu Univ.), Takaaki Mizuki (Tohoku Univ.), Atsuki Nagao (Ochanomizu Univ.), Hirotaka Ono (Nagoya Univ.), Toshiki Saitoh (Kyushu Institute of Technology), Tetsuo Shibuya (Univ. of Tokyo), Keisuke Tanaka (Tokyo Tech.), Tadanori Teruya (AIST), Kei Uchizawa (Yamagata Univ.), Kazuki Yoneyama (Ibaraki Univ.)

---

Suguru Tamaki (University of Hyogo), Guest Editor-in-Chief

---

**Suguru Tamaki** (*Nonmember*) is an associate professor of Graduate School of Information Science at University of Hyogo. He received his Ph.D. from Kyoto University in 2006 under the supervision of Kazuo Iwama. His research interests include algorithms and theory of computation.
